# Claim Attachments

## SIMPLIFY SUPPORTING DOCUMENTATION SUBMISSIONS

**Depending on the claim type, a practice may be required to provide supporting documentation for up to 90% of their claims. With submission rules and formats for varying payer to payer, the process can be cumbersome and costly.**

TriZetto Provider Solutions Claim Attachments solution can help. This solution enables a more efficient way to submit medical, dental, and worker's compensation claims and corresponding attachments to almost any payer.

This solution can help reduce costs by:

- Reducing costs associated with manual paper workflows
- Enabling a remote work force to send claims and attachments to payers
- Using an attachment workflow to reduce manual intervention
- Reporting on claim and attachment delivery through payer adjudication

TriZetto Provider Solutions Claim Attachments solution delivers claim attachments to payers faster and more economically than manually managing the process in-house.
