Revenue Recovery Services

MINIMIZE OVERSIGHTS, MAXIMIZE REVENUE

Is your organization struggling to collect at-risk revenue as a result of payer underpayments?

Payer organizations under pay claims on an average of 8% of total reimbursement, with only 35% of those underpayments receiving appeal, and an even smaller portion subsequently recovered. With an average manual appeals cost of \$25 per appeal, these items frequently get lost in congested workflows. Instead of assigning these time-consuming tasks to organizations' busy teams, our Revenue Recovery specialists will operate behind the scenes to manage the work for your organization.
