

Credentialing is an important component of running your practice.

Let us do the heavy lifting.

Discover a faster, simpler route to credentialing and payer enrollments with the help of TriZetto Provider Solutions. Whether your practice needs to gain or maintain payer enrollments, let us tackle the elephant in the room with our end-to-end credentialing service.

Credentialing Hub's Differentiator: The Pulse Credentialing Portal

Experience an automated, intuitive platform that combines our expertise with a system that remedies the inefficiencies that arise in the credentialing process.

Benefits to the platform include:

- Automation with a data repository featuring all the necessary information
- Convenience from a modern, web-based portal with provider-centric features
- Clear results gained by real-time insight into submission status
- Efficiency that allows more time for staff to coordinate patient care

Our team of payer enrollment experts has experience working with various payers and providers of all backgrounds. Let our team collect and submit information in a timely manner and perform all necessary follow-up tasks, lightening your load so you can focus on patient care and growing your practice.
