

# TriZetto Provider Solutions®

offers integrated revenue cycle  
platform transactions for  
**Epic Health Systems**

## Enterprise Revenue Cycle Platform for Epic Health Systems

Shortage of skilled billers, incorrect billing and delays in billing completion all pose challenges in increasing denial rates. Whether your organization is new to Epic or preparing to optimize processes, implementation of revenue cycle platform services is at the heart of efficient claims processing. Partnering with an experienced revenue cycle vendor can increase efficiencies, uncover missed revenue and maximize reimbursements.

### TriZetto Provider Solutions' revenue cycle transactions are integrated into Epic workflows:

#### Comprehensive Integration

Partner with TriZetto Provider Solutions® (TPS) for access to a fully integrated enterprise revenue cycle platform, configured to Epic specifications and with continual focus on transaction development. Manage professional, institutional, dental and workers' compensation claims with a powerful edits engine and reconciliation tools that promote clean claim submission. Maximize productivity with real-time claims updates, current payer status requests, and eligibility and authorization query submissions using TPS' automated claims management tools.

#### Consultative Service

TPS provides comprehensive, white-glove service during implementation, daily delivery, and ongoing account management, so that your organization will receive organized and prompt issue resolution led by a dedicated service delivery manager. We provide consistent communication, training post-launch and recurring monthly reviews altogether to support goal alignment, reduce errors, create new efficiencies and increase revenue.

With over 25 years of revenue cycle management experience and continual investment in solution development, TPS strives to enhance your organization's ability to address healthcare challenges and opportunities.
