

Live Compliance

ALL YOU NEED TO CHECK OFF YOUR HIPAA COMPLIANCE REQUIREMENTS

Not sure if you need to be HIPAA compliant?

According to Health and Human Services HIPAA Federal Regulations, if you belong to the category of "Covered Entities" or "Business Associates," and you handle, access or transmit "protected health information (PHI)," **you and your organization are required to be HIPAA compliant.**

*We help you forget about compliance...
Without actually forgetting about compliance*

LIVE COMPLIANCE SERVICE AND SUPPORTING COMPLIANCE MANAGEMENT CLOUD PORTAL INCLUDES:

HIPAA and Compliance All In One Place

Your Live Compliance Online Portal is the key central point used to manage and organize all aspects of your organizations compliance requirements. Key features include, **document routing and signing, staff portal, LMS** and allows easy **management of 1 or many physical locations.**

The Live Compliance HIPAA dashboard helps you keep compliance efforts organized and on track. **Easily track your risk analysis, risk management plan, training, employees, business associates, vendors, required documents and policies and procedures all in one place.** No Guessing, you, your team and employees receive intuitive and helpful weekly reminders of outstanding items.

Security Risk Assessment

Includes External Penetration Test, Corrective Action Plan (CAP) and Required Satisfactory Assurance of HIPAA Compliance documentation. Security Risk Assessment of all three required categories, Administrative, Technical and Physical. All vulnerabilities and their remediation included in HIPAA Management Plan reports.

Risk Reduction And Patient Security

Providing exceptional healthcare services and meeting the HIPAA Compliance standards is a challenge. Data theft, accidental improper disclosure, State privacy regulations and workforce education of patient security is advancing through ever-increasing criminal tactics, and the scope of HIPAA compliance extends to new levels with the changing requirements faced by covered entities and business associates.

Training and Certifications

- ✓ HIPAA Security Officer Certification Training
- ✓ Employee HIPAA Privacy and Security Training
- ✓ Workforce Policy and Procedures Education
- ✓ Breach Notification
- ✓ Your Live Compliance LMS is available for any training you want sent to your employees and vendors

Administrative, Physical, and Technical Policies and Procedures

Created for your organization (Covered Entity or Business Associate) and totally customizable and Actionable. Easily share with employees and publish to the included Employee Portal. Send to your workforce as an eSign document to have employees read and sign.

Dark Web Monitoring and Exclusion Verification

Includes on demand, automatic or scheduled OIG, SAM and other employee and vendor exclusion verification datasets including Dark Web Breach Real-Time Monitoring.

NEXT STEPS:

Ready to forget about compliance, without actually forgetting about compliance?

Schedule your **Security Risk Assessment**, or schedule an **Organization Needs Assessment**, or **Get In Touch** if you have any questions.
