SAVE TIME AND MONEY WITH A STREAMLINED SOLUTION

Strict state and payer mandates make manual processing of workers' compensation, auto accident and liability claims laborious, frustrating and expensive.

TriZetto Provider Solutions, a Cognizant company, offers a streamlined workers' compensation solution that can help your practice get paid faster, easier and more accurately.

Maximize revenue opportunities and reduce manual labor by:

- Submitting electronically to more than 3,000 payer IDs and automatically or manually matching applicable attachments

- Using built-in claim edits to match unique payer specifications

- Easily converting attachments to payer requested electronic formats

- Submitting batch attachments

- Utilizing auto-lookup state license numbers, when required

- When necessary, electronically submit copies of claims to the New York State Workers' Compensation Board

Simplify your workers' compensation, auto and no fault claims submission processes with a single portal that allows batch attachments and provides tools for clean, accurate submissions.
