

Patient Communication Built for Trizetto Practices

Save hours each day. Boost collections by sending billing messages by HIPAA-compliant text from your office line. Cut call volume and phone tag. Your patients and staff will love it.

Personal and efficient billing communication.

Intelligently manage patient interactions and reminders, helping your overwhelmed staff deliver faster responses while maintaining your practice's personal touch. What used to take hours, now takes just seconds.

Two-way billing texting for busy practices

Free up your team and make patients happier with simple two-way texting.

After quality of care, patients say communication is the top reason they stay with a provider. OhMD makes it easy for practices to streamline billing communication.

3 hrs per staff member, saved each day

25% reduction in patient phone call volume

What billing pros are saying about OhMD

It was a 10X increase in patient payment volume after we implemented broadcast. We're talking about going from \$2500 a month in payments to \$225,000 through the website.
